Legality of the city's acceptance of a low bid for reeding the new fire station lawn is being questioned.

The low bid of \$285 was submitted by Modern Extremist Co., operated by Charles Voss, whose partner is City Inspector Jack Fricker. The only other bid, \$475, was submitted by J. B. Moss. Both proposals were opened last Monday night by the council and referred to the Fire and Water committee without comment.

City Inspector Fricker is a 50% partner in the Modern firm, but told the Press-Record his role is merely ownership of the property and that he receives no salary.

The Press-Record learned from a legal source the appointed position of city inspector could be termed an official post, the same as elected officers and the appointive offices of city attorney, controller and engineer. The officers may not enter into private business transactions with the city. It was pointed out the office of city inspector was created by ordinance and filled by appointment by the mayor.

However, state statutes which prohibit elected officials and municipal officers from doing private business with their government employers do not specify the office of city inspector, the Press-Record was told.

## GC Park District Ends Year With Balance

The 1959-60 financial report for the Granite City park district, prepared by Treasurer L. "Jack" Johnson, shows disbursements totaling \$125,123 for the fiscal year ended last April 30, leaving a balance of \$56,022.

The report, listing itemized expenditures, appears in the legal advertisement section of today's issue.

Receipts for the district during the year were a \$39,443 balance, \$86,883 from taxes, \$13,788 from concessions, \$13,395 from the swimming pool, \$4745 from the recreation program and \$2400 from miscellaneous sources.

Authorization has been granted for issuance of a \$300,000 anticipation warrant, and about \$15,000 is expected to be borrowed to have sufficient funds available for the start of the park season and until new tax money is available.

## Publicist Gives \$1000 To SIU For New Books

A \$1000 gift has been made to Southern Illinois University's Journalism Students Association by Publisher C. E. Townsend of the Granite City Press-Record for new book acquisitions.

Townsend, winner of the Editor-of-the-Year Award of the Illinois Press Association in 1958, gave the money for the purchase of Journalism reference books.

Each book acquired will carry a book plate, printed by the students, which read: "The C. E. Townsend Collection, Southern Illinois University, Journalism Students Association."

The books deal largely with newspapers, press services, reporters and world affairs.

## 2nd Holdup Trial May Be Postponed

"The trial was set for next month, but it's doubtful we'll get him back," Granite City Chief of Detectives James R. Lower commented last week upon learning that Forrest Allen Parker, 21, St. Louis hoodlum, had been released from St. Paul, Minn., during a \$4000 supermarket holdup.

Parker was released in January from the Missouri state penitentiary and was expected to stand trial at Edwardsville for the \$6600 stickup of Jacobson's tavern here on Jan. 31, 1958. He had been in the Missouri prison on a charge of possession of burglary tools and carrying a concealed weapon, and upon his release, was taken to the Madison county jail on the local armed robbery count.

## Family of Nine Awarded First Sweepstakes Auto

A down payment on an automatic washing machine at Fredman Bros. Furniture store, qualified Mr. and Mrs. Beryl L. Foresh, parents of seven children, to receive the first auto award of the Associated Retailers sweepstakes.

Mr. Foresh, a welder at General Steel Castings Corp., received the keys to the car Friday morning from Maurice Rich, retail president, in a ceremony at Eldest Motor Co., where the Sludebaker Lark was presented to the family.

The Foreshes, who live at 2928 National avenue, have a 1954 auto, but are currently driving his father's 1949 auto. They expressed great delight in the ownership of the new car and have not yet decided whether to sell their old one or become a "two-car family."

They were accompanied to the auto agency by three of their youngsters, Carol, 15 months old, Billy, 3, and Debbie, 5. Their other children are Maria, 16, Richard, 14, Roger, 11, and Robert, 9.

A charge of following too closely was placed against Dana Rollins, 17, of 3124 Willow avenue, who was arrested after an accident Sunday afternoon in the 3000 block of N. Main street. Police said he had struck the rear of an auto driven by Marshall B. McElroy, 46, of 2910 Warren avenue, as both were traveling south. No injuries were listed, but the Rollins' car was towed away. She was freed upon posting her driver's license as bond.

## Council-Manager Group Seeks More Members

Granite City residents interested in city manager form of government for the city are being invited to join the newly-formed "Citizens for Council-Manager" organization. It was announced during a meeting of the group Thursday evening at its headquarters, 1840 Delmar avenue.

James "Red" Worthen, who is organizing the group, said it will be patterned after Alton Citizens for Better Government group which was successful in obtaining city manager government for that city. Plans are being made for an election of officers, adoption of bylaws and establishment of a speakers' bureau. Membership fees are \$1 a year for residents of Granite City and for associate membership for non-residents.

Worthen said the circulation of petitions for calling a city manager government in Granite City should be completed by June 6 for presentation to the county court. At least 2000 signatures will be on the petitions by that date, Worthen said.

SINCE JUNE 19, 1936

On June 19, 1936, during the depression era, The Leader introduced Eagle Stamps and made it possible for their customers to receive an Extra Saving on purchases at their store. In the 24 succeeding years many thousands of dollars have been returned to the buying public through the Extra Savings of Eagle Stamps... money earned on money spent for daily personal, family, and home requirements. HOW MANY THOUSANDS OF DOLLARS DO YOU THINK THE PEOPLE OF GRANITE CITY HAVE RECEIVED AS EXTRA SAVINGS THROUGH EAGLE STAMPS ON THEIR PURCHASES AT THE LEADER?

The Leader offers awards for the estimate nearest the actual amount that has been returned to the buying public through the Extra Savings of Eagle Stamps in the past 24 years. # Granite City Bows To Flyers In Regional Final

THIS SCENE did not take place often enough Saturday afternoon at Wilson Park, where East St. Louis knocked Granite City high school out of the state baseball elimination 4-3 in a regional final game. Warrior Rich Williams is shown scoring the second GCIS run, the result of Don Dillard's single in the third inning. Partially hidden behind Williams is Flyer Catcher Art Reames.

## Base On Balls Plagues Warriors In 4-3 Loss To East St. Louis Here

The old adage, "There's no defense against the base on balls" came home to haunt Granite City's Warriors here Saturday afternoon. East St. Louis, taking quick advantage of momentary wildness by two GCIS pitchers, pushed across three runs in the fifth inning on only one infield hit, and went on to knock Joe Fedora's squad out of the state high school baseball playoffs, 4-3.

The hotly-contested game, played on the No. 1 diamond in Wilson Park after it was delayed by rain for four days, moved Pick Dehner's baseball nine in to the first round of the St. Louis sectional tourney, where the Flyers meet Littlefield this afternoon.

It was not Granite City's defense that started badly, but when Warrior starting pitcher Joe Holder, who had performed brilliantly against Collinsville during the district championship game, gave up an inning-opening triple to Flyer Bill Modier in the first.

Pitching Change

Modier scored as John Williams rapped a solid double to left and then, when Holder walked Tom Wyrostek, Fedora made an early move and inserted Dave Dumoulin.

The stocky righthander got out of the frame without any further damage being done, thanks to a snappy double play by the Warrior infield, which turned in three twin-kills in the first three innings.

Fourth-seeded Dave Moss of Granite City broke the tie in the top of the third when Larry Diak singled and Rich Williams followed with a looping base hit to right. The runners advanced to second and third when the Flyer rightfielder bobbed the ball. Don Dillard, who drove in all three Warrior runs, plated both of them with a ground single to left.

Dillard got his third RBI in the fifth after Diak had smacked his second base hit and advanced to second on an attempt.

## Hearts, Mercer Extend Inter-City Streaks To Five Straight Games

Front-runners in the Red and Blue divisions of the Southwest Illinois Inter-City Baseball League, put a bit more daylight between themselves and the rest of the league yesterday afternoon. Both local clubs won their fifth straight to remain undefeated this season.

The Hearts passed a big test in East St. Louis as they defeated State Savings and Loan 6-4 with a tie-breaking ninth-inning rally, while Mercer cracked out 15 hits at Wilson Park, built an early lead and downed Maryville 11-5.

Bob Page, who scattered nine hits, struck out four and walked only one, picked up his fifth straight win for Sacred Heart, but it took some doing.

Lyman Tucker's club got off to an early lead in the first with two runs on a walk to Larry Burns, Wayne Pashea's bunt single, a fielder's choice and Catcher Clayton Harrison's two-run single. State Savings plated one run in the bottom of the first, and tied the score with a single.

Two more Mercer runs crossed the plate in the fourth when John Modrusic pumped a long home run to left-center with Rich Branding aboard. Crabtree's third hit in the fifth drove home Rudy Diak, who had walked and moved up on Angelo's sacrifice bunt.

Modrusic Homers

Two more Mercer runs crossed the plate in the fourth when John Modrusic pumped a long home run to left-center with Rich Branding aboard. Crabtree's third hit in the fifth drove home Rudy Diak, who had walked and moved up on Angelo's sacrifice bunt.

Modrusic scored his 11th run in the eighth on two walks, singles by Johannmeier and Modrusic and a stolen base. Maryville, in losing its fifth straight, collected seven hits off Angelo's offerings, but the righthander kept them well scattered in picking up his third victory against no losses. Earl Allen and Harold Tankley had doubles for the losers, who scored once in the third and twice in the fifth and eighth.

White City moved into second place in the Blue division behind Mercer with an 11-inning 2-1 win over Troy. McAteer Glass, idle until Friday, dropped to third place, 2½ games off the pace.

Highland romped over Carpenter 11-2 in the only game played. McMackin Buick of Collinsville, holding onto second place behind Sacred Heart in the Red division, had an open date, and fell 1½ games behind the Hearts.

## Cards' Brettschneider Speaks, Shows FB Film

Carl Brettschneider, player with the St. Louis football Cardinals, was the guest speaker at a meeting of the Madison Lions Club Thursday evening in the club room. Fifty persons were present.

Brettschneider spoke on the 1950 Cardinal season and team prospects and showed a 30-minute film of the Cardinals in action during several games of the 1950 season. He conducted a question and answer period following the film.

Among the guests who attended the steak supper and program were Granite City high school head football coach Andy Sullivan and two of his players, John Grobski and Jerry Wallace; and Madison high school head football coach Francis "Fat" Dant and two of his players, Ed Walker and Mike Harris.

Lions Club President Austin Lewis reported on a joint meeting with the Madison Armvets concerning the July 4th celebration the two organizations will sponsor at Third street and Highland avenue.

## Moss Second In State Net Singles Finals

Fourth-seeded Dave Moss of Granite City broke the tie in the top of the third when Larry Diak singled and Rich Williams followed with a looping base hit to right. The runners advanced to second and third when the Flyer rightfielder bobbed the ball. Don Dillard, who drove in all three Warrior runs, plated both of them with a ground single to left.

Dillard got his third RBI in the fifth after Diak had smacked his second base hit and advanced to second on an attempt.

"Yes, that's what he said. He sat there advising us to pay for repairs to our damaged property, now that he had the signed statements from witnesses and all the other documented evidence he needed to bring legal action. It was such a relief."

"And when Bobby was hit by a car, it was our lawyer, sitting in that chair, who explained our legal position and how he would handle the details with the doctors, the hospital and the insurance company, etc. And that's where he sat when he worked out the details of Henry's will."

"I can hardly think of a really important phase in our lives that hasn't found him sitting in that same chair, giving us the same sound advice and important part in our buying this house! Why, in all those legal matters that came up and those papers we had to sign, he made certain every

time that our interests were fully protected. Yes, you just might say that chair has more than paid for itself, just from the use he's made of it."

"Several years ago, we were notified that the city claimed the right under a recorded easement to put a new street through part of our property. Once again our lawyer sat in that same chair, pointing out to us something we'd almost forgotten—our title insurance policy from Chicago Title and Trust Company. He promptly contacted the company and together they handled it to our complete satisfaction. I guess you might say the title company deserves part of that chair, too."

## Imaginative Program For Use Of Surplus Funds Of Madison Bridge

The imaginative program outlined by Mayor Stephen Maestas for use of Chain of Rocks Bridge surplus funds could prove to be of great benefit to Madison and the entire Quad-City area.

In obtaining a loan from the surplus fund, the city will be able to utilize \$500,000 to recognize treasury in advance of the retirement of bonds in 1963. This amount is to be devoted to the Madison-Venture sewer construction project which, together with a proposed Granite City master drainage program, could end the Quad-Cities' drainage problems for many years.

With the surplus growing at a rate of several hundred thousand dollars a year, the account still is expected to grow to several million dollars by 1963. It now appears likely that the city will be unable to build a second bridge, but the possibility of continuing a five-cent toll on the present bridge for maintenance and repair is being discussed, and investment of the surplus fund could enable payments to the city treasury to continue at the existing or a greater level.

Use of part of the surplus to encourage location of new industry in Madison is most imaginative, and Mayor Maestas reports that this is being given serious study. Whether as a city venture or in cooperation with the Tri-City Regional Port District, this could pay prompt dividends in the form of greater employment, acceleration of both industrial and residential growth, and broadening of the assessment base for local governmental taxes.

While expediting street, sidewalk, curb and other improvements in the city, the officials also hope to be able to annex enough territory to the east to offset with added taxes the higher city department costs resulting from annexation.

The plans for adequate drainage, continued bolstering of the city's limited tax revenue and expansion of both boundaries and industry indicate that Madison officials are aware of the need for future progress as well as current accomplishments.

## Stuart's Service To Youth Reflected In Lives Of Many Local Residents

Service to youth is one of the most rewarding of all endeavors, and an unparallelled record of such service has been carved out by James Stuart in over 25 years as chief advisor to the local Order of DeMolay chapters.

Whether in spiritual guidance, athletics, social events, DeMolay ritual work or character-building programs, Stuart has been a sturdy friend to whom all the teenage boys could look for sound advice. Taking over the duties when the chapter was on the verge of collapse during the depression period, he devoted extensive time to the task both before and during his own sons' membership and then continued his efforts for his "adopted nephews."

DeMolay Legionnaires estimate that several thousand young men have been influenced by Stuart during their impressionable adolescent years. That they are now living useful adult lives, many of them active in community service work of the type performed by Stuart, undoubtedly is a deeply satisfying reward for his long association with the DeMolays.

## Challenging Future Awaits Graduating Classes Of 1960

During commencement exercises beginning in the Quad-Cities tomorrow and continuing through June 10, graduating students will hear the familiar inspirational message that the future belongs to them, and that the outlook has never been as challenging as at present. The words are somewhat traditional, but they can be accepted as genuine.

For many, graduation from high school will be only a stepping stone to college, while others will take up their life's task immediately. Each will learn that education is an essential preparation for life, the necessary fuel in the door. But each also will learn that for the door of opportunity to remain open, knowledge must be followed by performance and devoted service to one's chosen profession or skill.

Probably every generation has thought that the next would face miraculous changes. But while the closing decades of the 20th century obviously will not achieve all the progress that will be attained in succeeding centuries, it is just as obvious that the next 40 years will bring about countless changes in the civilization that exists today.

Because of mushrooming population here and abroad, technological advances for both peaceful and military purposes and growing insight into human values and goals, the future holds infinite challenge and opportunity — not only for personal attainment but for service to mankind. With much hope, some sympathy and even a little envy, the world looks to the graduates of the 1960s, for the future truly will be theirs.

## Hidden, Direct Taxes Take Third Of Income Of Family Earning \$5000

Nearly all taxes are paid by the public — consumers, wage earners and property owners — Tax Foundation, Inc. has concluded as a result of a new tax analysis. Its finding is that people pay the taxes directly assessed on them, and also pay "hidden taxes," such as those levied on businesses or utilities and passed along as a cost of doing business.

The foundation estimates that a family with a hidden and direct taxes, of \$1600. It has counted 110 taxes on an egg, 116 on a man's suit, 150 on a woman's hat, 151 on a loaf of bread and 600 taxes on a house.

While the figures are enough to shock anyone sitting down to a breakfast of toast and eggs — 261 taxes — the foundation has announced them to call attention to a growing trend toward voting taxes that provide the expected revenue but are "hidden" from the public view. It has concluded that the average taxpayer is paying much more for government than he thinks he is.

## When You Really Need a Friend

Johnny's crackup is only a ten-minute tragedy. Growing accidents are tougher. When you have an automobile accident, you need more than a few comforting words and a pat on the head.

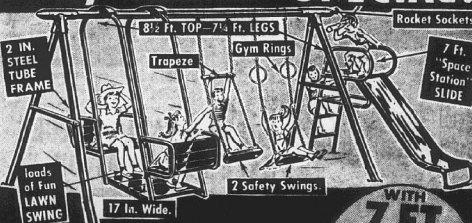

You need someone to see that you're protected in the event of staggering lawsuits... help you get prompt, fair payment for damage to your car... take care of all the details involved in filing reports and settling claims. Someone on your side. That's why most people buy insurance through an independent agent rather than from an insurance company employee. They know that many of the oldest, strongest and best-known fire and casualty companies sell insurance only through independent agents.

Be sure now that you'll have friendly, professional insurance help when you really need it. Look for this Big "I" Seal when you buy insurance. To display it, we have had to meet professional standards designed to protect you.
